

Connect with Webex offers the ability for licensed SMS users to utilize a BOT tool for sending SMS text messages.

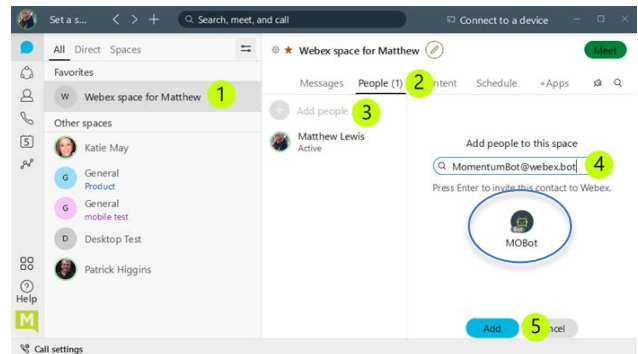

### To Add and Enable the MOBot SMS Text Tool in Your Connect with Webex

Click to open **Messaging** and then:

1. Click on the **Webex space** for <Your Name> in the list.
2. Click on the **People** tab.
3. Click on the **+ Add People** button.
4. Type **MomentumBot@webex.bot** in the data entry field and then click on the **MOBot avatar** when it displays directly below the data entry field.
5. Click on the **Add** button at the bottom of the view.

Connect with Webex will create a new Contact for your MOBot and add it to the list.

Now that the MOBot is added you may use it.

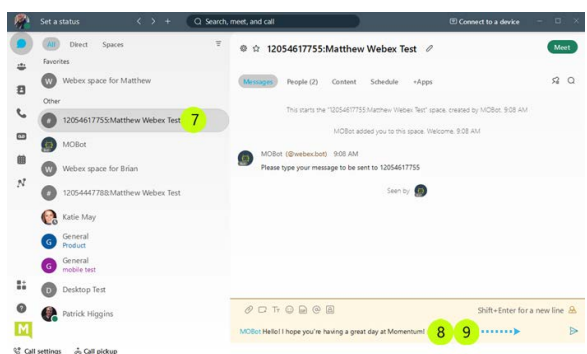

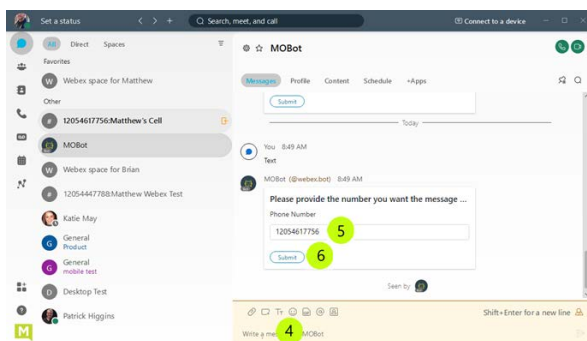

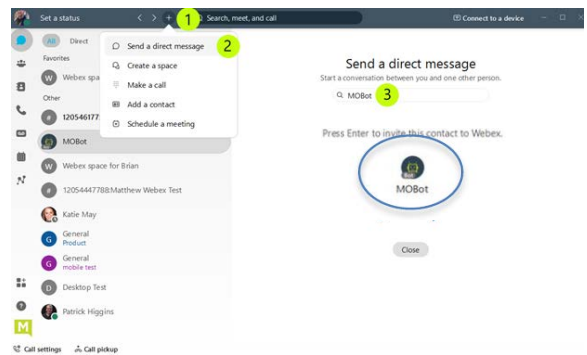

### To Send an SMS Text Using Your MOBot

1. Click on the **+** symbol in the toolbar.
2. Click on **Send a Direct Message**.
3. Type **MOBot** in the search field and then click on the MOBot Avatar that displays right below the field to select it. *This opens a direct message chat dialog with MOBot.*
  - 4. In the chat to MOBot, type the word **Text** and click the **Send** icon (far right). *This displays a phone number field.*
  - 5. Type the **Telephone Number** you wish to send an SMS text. Use the 11 digit format. **Example: 13215551212**
  - 6. Click **Submit**.

A new messaging space (chat) is created for SMS text via MOBot to the phone number defined.

7. Click on the chat created for the recipient's number to open it, type **@MOBot** in the 'write a message to' field and click on the **Send** icon (far right).
8. Now you may type the message you would like to send via SMS Text in the 'write a message to' field.
9. Click on the **Send** icon (far right) when your message is ready to be sent.

### To Review Your SMS Text Responses

Incoming SMS text message responses will appear in the Messaging space (chat) within Connect with Webex that was created for the telephone number. You can edit the name of the chat as needed.

### To Respond to SMS Messages

Click on the new incoming Message to view the text response and to continue to correspond using **steps 7-9** above to send each SMS text to the selected external contact.
