

Connect with Webex offers the ability for licensed SMS users to utilize a BOT tool for sending SMS text messages.

To Add the MOBot to Your Connect with Webex

Click to open **Messaging** and then:

1. Click on the **Webex space for <Your Name>** in the Spaces list.
2. Click on the **People** tab.
3. Click on the **+ Add People** button.
4. Type **MomentumBot@webex.bot** in the data entry field and then click to select the **MOBot avatar** when it displays directly below the data entry field.
5. Click on the **Add** button at the bottom of the view. *Connect with Webex will create a new direct messaging space for your MOBot and add it to the list.*

To Send an SMS Text Using Your MOBot

1. Click on the **+** symbol in the toolbar.
2. Click on **Send a Direct Message**.
3. Type **MOBot** in the search field and then click on the MOBot Avatar that displays right below the field to select it for sending direct messages. *This opens a direct message dialog for you to use.*
4. In the chat to MOBot, type the word **Text** and submit or press Enter.
5. Type the **Telephone Number** you wish to send an SMS text using the 11 digit format. **Example: 12055551212**
6. Click **Submit**.

A new space is created for communicating with that Telephone number.

7. In the new messaging space you just created, type **@MOBot** and press Enter.
8. Then type the message you would like to send.
9. Click on the **Send** icon (far right) or press Enter.

To Receive an SMS Text via MOBot

Incoming SMS messages via the MOBot will automatically create a new Messaging Space within Connect with Webex using the telephone number as the initial name for the Space.

Click on the new Space to view the message and you have all the tools you need to send texts, share documents, use Emojis and GIFs, send image files, and more.
