

Your customers need technologies in place that offer long-term support to their remote and hybrid teams. Momentum Telecom is a cloud communications provider that offers four key technologies your clients need most in 2022 and beyond.

91%
of workers strongly favor flexible schedules and working hours.¹

Cloud Voice

Remote and hybrid workers need access to the full functionality of a business phone system from any location, on any device.

Momentum's Business Voice service uses a cloud model to provide your customers with reliable phone service on an unparalleled network – with our unmatched customer support.

The UCaaS market is predicted to hit **\$24.8 billion** by 2024.²

Voice-Enabled Microsoft Teams

The number of active monthly Microsoft Teams users reached 250 million in July 2021³ – and that number continues to grow.

Momentum offers **Voice-Enabled Microsoft Teams** for a fresh, intuitive user experience that brings together different modes of communication into a single interface.

80% of businesses intend to maintain remote work at least part of the time.⁴

SD-WAN

The SD-WAN market is expected to reach \$3.5 billion by 2022.⁵

Momentum's award-winning **Navigator SD-WAN** solution will help your customers increase network and application performance while allowing them to reliably use internet connections for critical business applications.

Mobility & Collaboration

Momentum's mobility and collaboration solutions offer features that support your customers' remote workers. We provide a seamless experience across mainstream mobile and desktop platforms including Windows, Mac, iOS, and Android.

Use of collaboration tools has **increased 44%** since the start of the pandemic.⁶

THE CLOUD SOLUTIONS YOUR CUSTOMERS NEED TO STAY AHEAD OF THE COMPETITION

Momentum is the expert, all-in-one cloud communications provider that prioritizes your customers' experience and growth.

Get in touch with us today to start offering the four key cloud technologies that will drive customer success.
